

International Languages Day

September 2018

The whole school celebrated International Languages Day - Class 3 focussed on Poland.

It was good to try the different foods!

FE

In the morning, we tasted a range of foods from Poland, we filled out taster cards and commented on our favourites.

We spent the next part of the day looking at the language - we learnt basic words and greetings.

We then used this language learning to write postcards to children in Poland.

In the afternoon we took part in traditional Polish paper art - we did some complicated paper cutting and created craft flowers.

I liked trying the Polish chocolate and learning the language!
