

Stoke City Football

Autumn Term 1 - 2018

Year 4, 5 and 6 have been completing a 6-week block of PE with Stoke city. They have been focussing on invasion games.

I enjoy practising the basketball - it is really fun!

RT

Each week we have been developing different skills. We have focussed on passing, interception, marking and defence. The children have been using a range of passes including chest pass and bounce pass, they have been looking at which pass is best for when and how. We have used a range of games such as the shadow game to apply our learning and then ended each session playing different teams and applying our skills.

I like the cat and mouse game!

IJ

In the afternoon, the teachers from Stoke City also do a reading programme, which the children really enjoy!

We have really good instructors which make it fun!
